

October 1, 2021

Dear Valued Customer,

Carlisle Roof Foam and Coatings will increase price on all spray polyurethane roofing foam and liquid applied roofing product categories as referenced below on October 18<sup>th</sup>:

HFC SPF: 6%  
HFO SPF: 10%  
Silicone: 25%  
Acrylic: 10%  
Primers and Accessories: 10%

Carlisle Roof Foam and Coatings will further increase price on all silicone product categories as referenced below on November 1<sup>st</sup>:

Silicone: 20%

The price increase applies to all orders that are shipped on or after October 18<sup>th</sup> and November 1<sup>st</sup> respectively regardless of purchase order date; including orders with requested ship dates prior to specified dates which we are unable to fulfill.

This increase is required to offset sustained cost increases in various raw materials. We continue to exhaust every effort and opportunity to offset the increases we've endured in 2021 while ensuring we do our best to maintain product quality and service standards in this challenging environment.

Your Customer Service and Sales representatives will contact you to explain this announcement in more detail and to answer any questions you may have.

We appreciate your business and look forward to getting back to normal operating standards as quickly as possible.

Best regards,

  
Wesley Sherrer  
Sales Manager
