

Price Increase – Effective February 1, 2022

Ongoing global supply challenges continue to increase the costs and impact the availability of raw materials. Demand continues to outstrip supply, driving market tightness for nearly all raw materials used by the commercial roofing industry. These conditions are expected to continue well into 2022. As a result, the following price increase will be implemented **effective February 1, 2022**. An updated price book and membrane/polyiso price lists will be distributed by Friday, December 10, 2021.

| Product | Increase | Notes |
|------------------------------|----------|---|
| TPO Membranes & Accessories | 16%* | *6% TPO surcharge to be removed 2/1/22 for net effective 10% increase |
| EPDM Membranes & Accessories | 12% | |
| PVC Membranes & Accessories | 20% | |
| Polyiso Insulation | 12% | |
| HP-X Fasteners | 20% | |
| All Other Plates & Fasteners | 10% | |
| EPDM & TPO Bonding Adhesives | 10% | |
| PVC Bonding Adhesives | 20% | |
| Low-Rise Foam | 35-40%** | **25% surcharge on Flexible FAST™ to be removed 2/1/22 for net effective 10% increase |
| | | **30% surcharge on OlyBond to be removed 2/1/22 for net effective 10% increase |

| | | |
|-------------------------------------|-----------|--|
| All Other Products & Accessories | Up to 10% | |
| Material Upcharges (CGF, FAT, etc.) | Up to 50% | |

The price increase applies to all orders that are shipped on or after February 1, 2022, including orders with requested ship dates prior to February 1, 2022, which Carlisle is unable to fulfill. All orders will continue to be invoiced at the price that is valid at the time of shipment, regardless of the date the order was placed.
