

# GULFEAGLE SUPPLY

---

June 1, 2026

Dear Customer,

Thank you for your continued business and the confidence you place in Gulfeagle Supply.

Due to ongoing increases in transportation, freight, and fuel-related costs, delivery fees and any applicable freight or fuel charges will be adjusted effective June 1, 2026. These charges may increase by an additional 20%, depending on market conditions and delivery requirements.

We have worked to minimize the impact of these increases; however, this adjustment is necessary to maintain the level of service and reliability you expect.

If you have any questions or would like to understand how this may impact your business, please contact your local management team at your nearest Gulfeagle Supply branch. They will be happy to assist and provide additional details.

We appreciate your business and the opportunity to continue serving you.

Sincerely,

Brad Powers
