

GULFEAGLE SUPPLY

DISTRIBUTORS
ROOFING AND BUILDING PRODUCTS

March 25, 2026

To Our Customers,

Due to announced increases from our manufacturing partners, along with ongoing global supply constraints, Gulfeagle Supply will be implementing the following price adjustments effective April 13, 2026.

- Residential roofing products and accessories will increase 5 to 10 percent
- Commercial roofing products will increase 6 to 10 percent
- Metal products may increase up to 15 to 20 percent

Additionally, fuel, freight, and delivery charges may be adjusted in response to rising transportation costs.

We encourage you to work with your local Gulfeagle Supply branch to review upcoming needs and secure material ahead of these changes where possible. If you have any questions, please contact your local Gulfeagle Supply team for further details.

We appreciate your continued partnership and remain committed to supporting your business as we navigate these market conditions together.
