May 8, 2026

Dear Valued Customer,

Due to the continued increases in costs of aluminum, steel, copper, packaging material, paint and shipping, US Aluminum will be forced to pass along a portion of these increases.

Effective June 15, 2026, US Aluminum will be implementing an increase of 5-8% on all products.

***Note: We will continue to honor our shipping policy of shipping all orders over \$100 FREE OF CHARGE. There will also be NO FREIGHT SURCHARGES!**

Although we will attempt to fill all orders completely, we do reserve the right to limit bulk purchases prior to the increase based on historical order patterns.

If you have any questions, please contact your local sales representative or give us a call at (800) 877-7026. We will be sending you an updated price catalog on or before June 15, 2026.

Thanks again for your business and best wishes for a continued safe and successful 2026!

Sincerely,

A handwritten signature in blue ink that reads "Chad Harmon".

Chad Harmon
National Sales Manager
US Aluminum Inc.
