RE: Price Adjustment

Dear Valued Klauer Partner,

Effective July 16, 2026, Klauer Manufacturing will implement a 10% price increase on all aluminum products and a 5% price increase on all steel products.

This adjustment is necessary due to the continued escalation of costs associated with steel, aluminum, coatings, freight, and other manufacturing-related expenses. Fuel-related costs have not been included in this increase, as we remain hopeful that these expenses will moderate as geopolitical tensions in the Middle East subside. While we have made every effort to absorb these rising costs, their sustained impact requires us to adjust pricing in order to maintain the product availability, quality, and service our customers have come to expect from Klauer Manufacturing.

To qualify for current pricing, orders must be received by the close of business on Thursday, July 15, 2026, and will ship according to Klauer Manufacturing's standard production and shipping schedules. Klauer Manufacturing reserves the right to limit order quantities or adjust lead times on unusually large-volume orders. Updated price lists will be available no later than July 14, 2026.

If you have any questions regarding this adjustment, please contact your Klauer representative. We sincerely appreciate your partnership and continued support and look forward to serving your business in the years ahead.

Joseph R. Smith
Director of Sales
Klauer Manufacturing Company
