

RE: SIKa SUPPLY UPDATE - FACADES

June 22, 2026

Dear Valued Customer:

As previously communicated, current global market conditions, including continued instability in the Middle East, have disrupted the global supply chain, causing significant increases in Sika's cost of raw materials, logistics, energy, and production. Despite our efforts, Sika is unable to fully mitigate all the impacts from these external forces.

To cover the increased costs, we must make some adjustments. Therefore, effective for all orders shipped on or after July 1st, Sika will be implementing price adjustments on the following products:

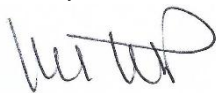

- All Senerflex & Tersus Finishes - \$2/pail increase
- All Parex DPR & Aquasol Finishes - \$2/pail increase
- All Weatherseal R/RS/Spray and Roll On - \$2/pail increase
- All Pebbletex Finishes - \$3/pail increase
- All LaHabra Perma Finish Finishes - \$2/pail increase
- Parex PolyBond - \$1.20/unit increase
- An additional freight surcharge of 1.5% will be implemented to all orders effective July 1st.

We want to assure you that these measures are not taken lightly. Our teams continue to try to mitigate the impact of these increases through sourcing strategies, operational efficiencies, and proactive inventory planning. Unfortunately, these actions cannot fully offset the cost increases we are experiencing.

Sika remains committed to supporting your projects and ensuring continuity of supply. Your Sika representative is available to answer any of your questions.

Thank you for your understanding and for being a valued customer.

Sincerely,

A handwritten signature in black ink, appearing to read "Michael Mastro".
