Dear Valued Customer,

Due to significant and sustained increases in transportation costs over the past several months, we will be adjusting our freight surcharge to \$600 per truckload, effective October 19, 2026.

Freight capacity remains extremely tight across the market, and current diesel fuel conditions are expected to place additional pressure on transportation availability and costs. While we have worked diligently to manage these increases internally, the continued escalation in freight expenses requires us to make this adjustment to maintain reliable service levels.

We appreciate your understanding and continued partnership. If you have any questions, please contact your sales representative.

Thank you

A handwritten signature in dark ink, appearing to read "Robert Ferree". The signature is fluid and cursive, with the first name "Robert" and last name "Ferree" clearly distinguishable.
